John S. Sayward.—Editor

SATURDAY, OCTOBER 20, 1849.

A Bangor Boy.

The reputation of some and indeed too many Bangor Boys has, just now, a bad odor, in the nostrils of the public. But we do not now propose to call attention to such but to make mention of one who by his enterprise, intelligence and the faithful pursuit of an upright course and strict integrity in business has acquired an honorable reputation. He is the son of a farmer living within the limits of our city and who a few years since had a large family of children mainly depending upon him for support. This boy had made good progress in the public school in his district, and at the age of thirteen, at the suggestion of his own mind, came to the city proper and sought a place in one of the families here where he could work for his board and attend the higher schools. Having succeeded thus far he proposed to his father to maintain himself and do something towards acquiring an education. He had never disobeyed the commands of his parents and in all things had so demeaned himself as to inspire their highest love and fullest confidence. His self-suggested plans were laid open and consent obtained that he might make the experiment.

In a short time he was admitted, by examination, to the Boys High School where his good conduct and devotion to study won for him the confidence of his teacher and the affectionate regards of his school fellows.

At fifteen years of age he was employed in an Express Office in this city and discovered so much aptness for business and energy of character that he was in a short time engaged as traveling conductor between this city and Boston on the steamer in the summer and by railroad and stages in the winter.

He continued in this employment for several years when an opportunity offered for him to engage in the Express business for himself as a partner in an establishment in whose business talent and fidelity the public seemed disposed to place entire confidence. Here he continued for two or three years, sustaining the arduous duties of conductor of an Express between this city and Boston. From the first to the last has been the quiet and straight forwardness of his career, and such the agreeable amenities of his manners, and the even cheerfulness of his disposition that no enemy has arisen and no tongue uttered its slanders against him.

Within a few weeks he has withdrawn from the business, to engage in some other and perhaps more agreeable and less hazardous business. But such has been his success in the past—such his self-sustaining power that we may venture to predict for him honorable achievements and an increasing reputation. Such is the brief picture of a Bangor Boy and that boy Capt. Wm. H. Mower late a partner in Hodgman & Co's Express.

☞ The editor of the Kennebec Journal, whose son is in California, and from whom letters have been received, says that all kinds of provisions are plenty in California, except vegetables, and he recommends to all about sailing for California to take with them a quantity of garden seeds to be planted there next spring. This suggestion comes from those now there, and who feel the need of such seeds. We trust that our citizens, who are about sailing for the land of gold, will attend to this matter, and go prepared to supply seeds to the new country, which so temptingly opens its treasures for their acceptance.

The more delicate garden seeds should be well packed in tin air-tight cases, and kept nicely sealed up during the entire voyage. Some little adventure of this kind would undoubtedly pay a handsome profit, besides benefiting the country, and increasing the comfort of those who make that country their permanent or temporary home.

The Journal gives the following account of the doings and prospects of some of the citizens of Augusta now in the gold regions:

Edward Davis of Augusta, was getting two ounces a day at the mines—others were very successful, and some got but little—the work very hard and the weather intensely hot. Messrs. Pillsbury, Bicknell and others of Augusta, were getting very high wages as carpenters at San Francisco. Mr. Leonard and others had gone up to the mines. Horace Williams arrived on the 30th August. The dysentery prevailed extensively all through the month of August, compelling some who regarded their health to go down to San Francisco for the benefit of the cool sea breeze till the weather should be cooler.

Still Another Daring Robbery.

We learn that on Thursday night last, the dwelling house of Samuel Sylvester, Esq, on Broadway was entered and robbed. The robber entered through a back window—passed through two rooms into the bed room where Mr Sylvester and his family were asleep, and from thence took the clothing of Mr Sylvester, which he conveyed to the back yard and there rifled the pockets, in which were about twelve dollars.

They also took the key of the store, but were probably alarmed by the moving of Mr S., who got up to examine the doors, one of them being found open, and did not venture upon entering the store.

At the rate this sort of business is progressing it will be necessary not only for every man to increase the fastenings of his dwelling, but the night police must be increased by the city or by citizens' watch.

Another.

We learn this morning that the house of Mr. Geo. Farrington was entered by a robber after forting two locks, about 3 a. m., and proceeded up the stairs into the sitting-room and was approaching the bed chamber of Mr Farrington, where he was discovered by Mrs F, when he immediately left without committing any robbery.

SERIOUS ACCIDENT.

While one of the workmen, a German, named Francis Kowalsky in Messrs Shaw & Merrill's steam mill, was engaged on Saturday afternoon, in slipping a band upon a drum attached to the main shaft he became entangled, and was drawn up over the shaft several times. One of his arms was crushed and badly cut, one leg broken in two places his forehead greatly bruised and a severe cut in the temple, near his left eye. He complained greatly of distress in the bowels.

He was immediately taken to the hospital, and several surgeons were in attendance. His recovery is not [illegible]

He has a wife and three children depending upon him for support.

☞ Rev Prof Shepard having returned to the city, Market Hall will be open for Public Worship, to-morrow.

Wells' Lawyer, and United States Form Book.

This is the general title of a book which the agent for the sale of them has laid upon our table. It contains a list of property exempt from execution; lien law, law of limitations, laws of contracts; usury laws; &c., in the different States of the Union, and in the Canadas; The Constitution of the United States, with notes and decisions of the United States Court; the new science of numbers; and forms for releases, satisfaction of mortgages, Caveats, oaths, acknowledgment of deeds, affidavits, deposition, certificates of citizenship, declarations, state of demand, tenture of lands, letters patent, letters of license, petitions, specifications, tenant's agreement, landlord's agreement, assignments, arbitrations, agreements, awards, deeds, submissions, leases, certificates of renting, customhouse forms, bills of exchange, bills of sale, bills of lading, due-bills, notes, bonds, orders, receipts, deeds, mortages, Marriage certificates, marriage settlements, contracts, power of attorney, letters of credit, wills, indentures of apprenticeship, articles of copartnership, laws and terms, &c. &c., with notes, explanations, and directions. A complete system of book-keeping, interest tables, a table of gold and silver coins, and important information for business men.

Nothing farther need be said of the usefulness of such work except, perhaps, that its accuracy is well vouched for by those competent to decide upon so delicate a matter.

The agent is now in this city for the purpose of disposing of the work.

☞ The Penobscot Musical Association will hold its second annual session in this city commencing on Tuesday next, and will continue in session for three days, and close with a grand Concert on Thursday evening. B. F. Baker, Esq. of Boston, Director, assisted by Messrs. L. H. Southard and N. D. Gould, of Boston.

The course of instruction at these annual sessions is calculated to impart much valuable information to singers; and those who have experienced the advantages of a correct musical education thus furnished, will not on any account fail to attend.

Dea. E. S. Durch is Secretary of the Association, and furnishes tickets for the course, admitting a Gentleman and two Ladies, at one do or.

A California Adventurer.

Several months since a young gentleman of New Orleans (not regularly engaged in trade) had the curiosity to try his hand at the California adventure, and sent out 50 bbls. of cider, which cost him $5 a barrel. The freight was $3 more, making $8 a barrel, or a total expenditure of $400. Subsequently, he parted with a share in the adventure to a friend. They have just learned the result. The cider sold in California for $120 a barrel, yielding a total of $6000, nine-tenths of which are clear profit.

☞ Mr Wm R Simpson of South Newburgh has left at this office several fine specimens of winter apples raised in his orchard; among them are the New York Russetts, Blue Pearmain, Nonesuch, R. I. Greening, Baldwin, and a russet apple name not known.

Mr Simpson has about two hundred apple trees and raises this year about 150 bushels of choice winter fruit.

At a Convention of Editors in Tennessee, it was unanimously resolved to discourage personalities in political controversies, and promote mutual courtesies with members of other professions.

☞ Our thanks are cheerfully tendered to Hon Hannibal Hamlin for copies of the Patent Office Report for 1848, and for other documents of value. Also to Hon. J. S. Wiley for similar favors recently received from him.

☞ Rev. Calvin Gardener, of Waterville, will preach in the Universalist Church o-morrow, and lecture in the evening.

☞ Rev. H. R. Nye has given notice to his church and society of his intention to sever the pastoral relation at the close of the present year.

☞ Joseph Saukabasin, one of the Penobscot tribe of Indians, advertises his professional card, as Indian Doctor, in the Thomaston Gazette.

☞ We make the following extract from the Money article of the Boston Journal of the 17th inst:

"The California fever exerts over the stock and money markets adverse influences to an extent greater than is generally imagined. Every man who becomes infected with the epidemic, immediately sets about raising the means for an outfit, and it he chances to own stock, it is at once forced upon the market; thus lots of from one to twenty shares are continually finding their way into the street, from a class who are generally looked upon as permanent investers, and who otherwise would be last to sell on a heavy market. The number of shares thus sold by Californian emigrants, or by their friends for their benefit would occasion general surprise, if it could be accurately stated; these sellers are so many real and valuable investers taken from the market, and there is at present but little to counteract the effect of such an unusual supply. Every emigrant too, carries out as a necessary part of his outfit a sum of specie according to his means, and this occasions a steady and by no means slight draft upon the money market during the prevalence of the contagion. The reaction is of course sure to come from the products of the mines, but we have as yet realized but a small portion of the amount sent out in merchandise and specie. Of 464 vessels which have sailed from different ports in this country, but 95 had arrived at last accounts, and out of 92 from Boston but 16 have reached their destination. There are, therefore, 76 vessels from this port, and 369 in all, on their way to the gold region, filled with emigrants and freight. What will be the effect of such an accession to the mining population, and of such an increase of marketable commodities, is a question worthy of greater consideration than our present limits allow us to bestow upon it."

Gen Taylor Abroad.

The London correspondent of the N Y Evening Post, a Democratic paper, writes under date of the 28th September, as follows, in regard to the President's action in the Cuba expedition, which has been so bitterly denounced by the Washington Union and other Democratic presses:

"All the world is loud in commendation of President Taylor's prompt, energetic, and dignified act on his suppression of the intended entry into war against Cuba. The gallant old General has nobly vindicated his country's honor and his own. He has proved to Europe and the world that the republic of the United States is as resolute and powerful to maintain international good faith, and to check illegal attempts to subvert the governments of other countries, as she is able to preserve intact her own free institutions and internal tranquility. All honor to General Taylor for that same."

Do not Rely on Appearances.

We were informed yesterday, by a person who stated it as a fact, that on the landing of the steamship Falcon, an individual came on shore without hat, coat or boots. After looking around him for some time, with a free and easy independent kind of air, he called to a drayman and requested him to take charge of a pair of saddle bags, which were on board the vessel, and convey them to Hewlett's. With some hesitation the drayman complied with his request, but on attempting to lift the saddle bags he found he was unable to do so without assistance. The fact was, that they contained $10,000 in gold, which he coatless, hatless and bootless man had brought with him from California. We will guarantee that his costume to-day would not disgrace an habitue of Broadway. Truly, appearances are fallacious and deceptive.—[N. O. Pic.

The population of the United States could be compressed into the space of one mile square, and still have space to breathe in.

Liquor Prosecutions—No 7.

Mr. Editor:—I might linger awhile longer upon the beneficent though stringent provisions of the Liquor Law of 1846. At present, I waive that—tempted aside by what to every unprejudiced mind must afford satisfaction and confidence—satisfaction in view of the generous and protective operation of our system of Judicial prudence—confidence, in the preservation and triumph of the laws on the principles of common sense construction.

In my former numbers, I have given a full account of the ingenious quibbles by which lawyers, in the pay of Rumsellers, have sought to ward off and beat down the liquor prosecutions, by sham process of law under the name of "conspiracies." Parties, and witnesses, and men who have taken an active interest in procuring the enforcement of the law of 1846, have been arrested as criminals on complaint of men charged and unfairly and provedly guilty of violating that law, and dragged before supple magistrates in sympathy with these rumsellers; and there, no evidence merely of a design, intention, and agreement to ferret out and prosecute violations of that law, have been bound over to the District Court in bonds of from 200 to 500 dollars. Between the May term of the District Court for this County, and its October term, three of these conspiracy cases were got up. The first of these was on the complaint of William Douglass of Greenbush, against Cutler Partridge and William Partridge of Oldtown. This was tried before E. C. Brett of Oldtown, a lawyer, and one who makes large pretensions of friendliness to the cause of Temperance. He shed crocodile tears over the necessity imposed on him of punishing the rash imprudences of men he respected, and who, as he said himself, he doubted not acted with very good intentions. He bound them over for what might be the law in a competent tribunal, and did evidence before a higher court, in $200 bonds.

The second conspiracy case was brought by Wm. S. Ordway of Glenburn (alias William Ordway of Levant—(in the complaint he was named the latter, in the warrant he former.) the keeper of the Glenburn House, against Henry D. Adkins and Cyrus Houston of Levant. Houston was frightened into turning State's evidence to testify against Adkins that, on the 4th day of July, they went together on a ride, agreeing "to see what they could see," and if they saw liquor sold, or should purchase any, that they would prosecute [illegible] in their own names. Ordway was one of the rumsellers visited, and as he sold liquor to them and others, they prosecuted him according to the agreement. He said that they used no deception or art, and entertained no malice or ill-feeling towards Ordway, that he sold freely to all who called for liquor. This was the testimony, and all the testimony—and yet Lionel D. Phillips, of Hermon, a magistrate of considerable pretension, and sometimes pretty efficient himself in aiding to get up and carry forward liquor prosecutions bound Adkins over in $300 bonds! The course of Mr Phillips has often brought freshly to my memory the description which Homer somewhere gives—

"From these to those he flies,
And every note of swearing combines,
Large promise makes, and breaks the promise made,
Now gives the Grecks, and now the Trojans aid."

The third conspiracy case takes the fly off from all the rest. It was at the suit of the notorious Samuel Pratt, Inn-keeper at Newport.—He took a wide range of arrest. He sent Constable Brackett, of Hermon, a Rumseller, to Oldtown for arrest Caleb Page, the plaintiff in most of these prosecutions, a dread-ed name, and up to that time a sort of mysterious personage in the superstitions of the barroom liquor-dens, and retreat cellars of the County of Penobscot; with him the round visaged and plump-bodied constable proceeded by way of Corinth, to arrest the Rev. Ariel Ward, a well known and highly esteemed clergyman who resides in Levant. Ward was attending a Camp Meeting in Corinth, where he had just been preaching. The constable went to the camp ground with a phase domitatus of some seventy-five of his rumsellers and liquor drinking associates and kindred, to describe whom I should say with the funny old Dean—

"How I want thee, humorous Hogarth,
Thou, I fear, a pleasant rogue art;
Were but you and I acquainted,
Every monster should be painted;
You should fry your grinning coal
On this odious group of fools;
Draw the beasts as I describe them
From their features, while I gibe them;
Draw them like, for I am sure,
You will need no caricature."

But enough that they succeeded in arresting the minister in the midst of his brethren. I must omit a number of amusing incidents, and hasten to Newport. Here they arrested Thomas F. Dexter, one of the most respectable and respected of the citizens of that town, and at length these three men are arraigned before Mr Justice Pillsbury, of Newport. Sober, grave, impartial magistrate! All the pomp and beauties of jurisprudential fitness for such an occasion were concentrated in thy person! The frosts of years had matured thee. The habits of a long life had ripened thee! The honorable associations of half a century had shaped thee for the crisis. But rhapsody aside—hour after hour passed in no silent waiting—a crowd—not remarkable for abstemiousness, waited impatiently for the sentence.

"Such assemblies, you might swear,
Meet when butchers bait a bear;
Such a noise, and such haranguing,
When a brother thief is hanging;
Such a rout, and such a rabble
Ran to hear Jack-pudding gabble."

But where were the witnesses? Couriers were sent to Oldtown for Lamos—but Lamos had too much self-respect to respect the summons of the court. The country was scoured for witnesses who knew anything against Page, or Ward, or Dexter. As knowing enemies were wanting, the friends of these men were sought, that something might be found to uphold a predetermined sentence. Even these were sought for without success. They were out of town, or strangely mislaid. The charges were there, but no proofs.

Held thus in unpleasant contact, and bootless suspense, the prisoners at length permitted judgment to be rendered against them without evidence, satisfied that to be bound over was their doom at all events; and so enormous in the view of Mr. Justice Pillsbury was the crime, that he bound these men over in bonds of 500 dollars!!!

Behold the under magistracy of our county! These are the "good men and lawful, no maintainers of evil, nor parretors," of which Cowper speaks. These are the "men of the best reputation in the county," of the Statutes, or the "three or four of the best quality in the county," as the Statute of Edward has it. Truly our Governors, like the old Chancellors, must be sworn "not to make Justices of the Peace for gift, brokage, favor, or affection, nor of any who by himself, or other, privily or openly, sues to be in the office, but the best and most lawful men, and sufficient."

But thanks to our judicial institutions of a loftier grade. Men may be harrassed and dragged about by inferior magistrates—may be oppressed and insulted, under the forms of law, by men trusted, when they ought not to be trusted; and placed under bonds by the ignorant, incompetent, or wicked, filling places which only the wise and honest should fill. But between them and an indictment, our law has most wisely and prudently interposed a GRAND JURY.

THE GRAND JURY! What a mass of malicious prosecutions do they bury every year! What a jail-delivery of Judicial incompetency or wickedness is heaped up in their rejected complaints, and ignored bills! Among them, and near the top of the heap, sleep in deserved obscurity, the conspiracy findings of Messrs. Justices Brett, Phillips, and Pillsbury, aided and counselled by ——, but I spare the attorneys.

I propose in my next to submit some remarks on Grand Juries—the wisdom of their institution, and the excellence of their practical operation. It is at least germane to my subject; and I intend in this series of articles to take a latitude of discussion which shall awaken an interest in the execution of the laws, by unfolding the wisdom justice and general knowledge which characterize their administration, under the judiciary of our State.

PENOBSCOT.

STATE OF MAINE.

BY THE GOVERNOR.

A PROCLAMATION.

FOR A DAY OF

PUBLIC THANKSGIVING AND PRAISE.

I, John W. Dana, Governor of the State of Maine, with the advice of the Executive Council, do appoint THURSDAY, the TWENTY NINTH DAY OF NOVEMBER, as a day of PUBLIC THANKSGIVING AND PRAISE.

And I recommend to every citizen to manifest on that day, in such appropriate manner as an enlightened conscience may dictate, gratitude to God, that peace, plenty and prosperity reign throughout our borders—that the destroying angel, whose poisonous breath has marked his course with terror, pestilence and death, has only visited us to give timely admonition of order, cleanliness and temperance—that while throughout the world, the heel of the oppressor is again becoming more firmly fixed and more deeply impressed upon our prostrate race, we are in the full enjoyment of the cardinal necessities of our nature, freedom of conscience, thought, speech and action; deprived of which man is degraded slave of a master's will, but to the right exercise, is again the reflection of the image of his Maker. But above all, let us be thankful, that notwithstanding the hinderances of race and opposition on the one hand, and of ignorance on the other, we are, as a community, tending to, and partially, but progressively attaining a more liberal charity, a more enlightened philanthropy, a higher morality, a deeper and a broader mental culture, and a purer religion.

Given at the Council Chamber at Augusta, this thirteenth day of August, in the year of our Lord one thousand eight hundred and forty-nine, and of the Independence of the United States the seventy fourth.

By the Governor: JOHN W DANA.

EZRA B. FRENCH, Secretary of State.

MARRIED:

In this city, 18th inst., by Rev. C. D. Pillsbury, Mr. John A. Hamblin, of Portland, to Mrs. Rose M. Hamblin, of the same.

By the same, at the same time and place, Mr. Henry W. Knowles, to Miss Sophronia E. Ames, both of Bangor.

DIED:

In Hampden, 19th inst., General J. Herrick. Funeral services Sunday afternoon.

In Stetson, Oct. 7, Caroline E., daughter of Nathaniel and Sarah Allen, aged 15 years.

WHIG AND COURIER

Marine Journal.

Port of Bangor.

ARRIVED.

FRIDAY, October 19th.

Citizen, Stover, Newburyport.
Francis, Elder, Waymouth.
Harriess, Kilby, Dorchester.
Caillonine Jane, Bennard, Belfast.
Oregon, Rich, Trenton.

Arrivals, Clearances, &c.

Boston—Ar 15th, schs Somerville, Dodge, St John, NB; Example, Knowles, Machias. Cld, bark Sarah Olney, Carlton; Matanzas; Brig's Hinckley, Johnson, Savannah; Rosanier, Nichols, Wilmington, NC.

Edgartown—At 13th, schs Gee & Perkins, Gilkey, N York for Bangor with flour and corn. Th G. E. P, left New York 11th, and between 6 and 7 P. M., had a heavy sea running, consequently contact with sch Gold Hunter, Bunker, of Cranberry Isle, laden with salt; the G. E. P. was going at the rate of 7 knots. The two schs remained in contact an hour and a half when they got clear. The wind died away about two hours afterwards, and soon after shifted to N. The G. E. P. lost fore yard, fifteen fathoms chain and anchor, and boat, started cutwater, had larboard bow considerably chafed, carried away bibbed head stays and guys, and arrived at Edgartown at 10 1-2 A. M. this day. Capt Bunker and crew of the Gold Hunter got on board the G. E. P. and with the latter's boat and one of her crew went in pursuit of the G. H. and were not heard from afterwards, but were probably saved, as many lights from vessels were seen at no great distance. The Gold Hunter is supposed to have sunk. One of the crew of the G. H., Jas Morrison, of Maine, was brought into this port in the G. E. Prescot, considerably but it is thought not dangerously injured in his side, while the vessels were in contact.—The G. E. P. is said to be insured in Bangor, and her cargo in New York.—[Boston Adv.

From Hallowell—Ar 14th, brig Grand Turk, Berry, Bangor.

Boston—Ar 16th, brigs Keoka, Carver, and Viator, Cocord, Philadelphia; schs Creole, Ross, Machias. Cld brigs California, Hichborn, Pernambuco.

Edgartown—Ar 12th, brig Egyptian, Gram, Philadelphia.

LATER FROM EUROPE.

ARRIVAL OF THE STEAMSHIP

NIAGARA

AT HALIFAX.

Seven days later from Europe.

The Niagara arrived at Halifax on the 16th inst.

COMMERCIAL SUMMARY.

The commercial advices by this arrival are of a less satisfactory character than those by the Caledonia.—There has been no improvement in trade, nor have any good effects, expected to follow a bountiful harvest, been realized.

The demand for breadstuffs has been limited, and prices have a declining tendency.

There is not any change worthy of notice in American provisions.

There has been a marked improvement in the rates of freight to the United States, owing to scarcity of tonnage.

The market has been unsettled in all the Irish Journals, and as far as our experience extends, the potatoes seem more and more tainted every day.

RUSSIA AND TURKEY.

By far the most important political news yet this arrival is the possible and even probable rupture between Russia and Turkey. It forms the chief topic of discussion in the English and French Journals, as well as amongst all classes of the community, and in its bearing upon the European difficulties, as well as all other matters of national importance, appears to have been almost wholly lost sight of. The latest accounts from Constantinople state that the Emperor of Russia has made a formal demand through Count Ignatieff, envoy to the Porte, for the surrender of Kossuth, Bem and other patriots, who played a prominent part in the late Hungarian troubles, who have sought refuge at Widden, on the Danube, in the territories of the Sultan.

The Turkish government, with a boldness which cannot be too highly commended, refused to be bullied into a compromise of its independence, and Radziwil after having ineffectually endeavored to bully the Sultan into a compliance with his demands, has taken an abrupt departure from Constantinople, and Count Titoff, and the Russian ambassador, has closed all diplomatic relations with the Porte.

England and France, through their respective representatives, have prevailed with the Sultan in keeping him from his first resolution. Already, both in England and France, cabinet councils have been held to consider these grave circumstances. Not the slightest doubt can be entertained of the result. Should Russia persist in demanding the surrender of the devoted men, an European war is thought to be inevitable. The Paris Journal des Debates, of Thursday, says:—"We are glad to learn that England and France are most cordially united in the determination to support the ambassadors, in the advice given to them by the Porte, respecting the extradition of the Hungarians." A note has been drawn up by these two powers of a most energetic character, which it is thought will have considerable weight with the Emperors of Russia and Austria, to whom it is to be presented.

oct 16 No. 7 Main St.

Another Life Saved.

Read the following letter from a Clergyman of Camden, Me., to the Editor of the GOSPEL BANNER.—

DOWN'S ELIXIR,—A CURE.

DR. DREW—being anxious to do good to my fellow beings, as I have means and opportunity, I wish to state, through the Banner, that to my sickness last winter and spring, I received very great benefit from the use of N. H. DOWN'S ELIXIR.

I had been troubled some weeks with a severe cold which so affected the vocal organs, that it was with great difficulty I discharged the duties of my office. My cold continued until I was completely prostrated by bleeding, which created a dry, hard cough. My appetite failed, my strength wasted, and my flesh disappeared. Seeing Wistar's Balsam of Wild Cherry recommended in the Banner, I procured a bottle and commenced taking it; and continued its use until I had taken three bottles, when I became satisfied that it contained opium, making a large amount of physic necessary, and, also contracting the very organs that should be relaxed. I used other kinds of patent medicines, but with no good effect, seven weeks I continued gradually to sink under my disease; at the expiration of which time, I was extremely weak, my skin dry and husky, and my feet and hands cold most of the time. I had a dull, heavy pain between my shoulders, and a distressing pain at the pit of my stomach. My tongue was coated with a thick, white fur, bowels very irregular and costive, hectic fever, night sweats, dry, hard cough, difficulty of breathing, and low spirits. My stomach at this time was so sore and weak, that it was with difficulty I could stand erect. This was my situation when I commenced the use of N. H. DOWN'S ELIXIR. And to my great joy, and the greater joy of my friends I found that the use of it a few days had regulated my bowels, equalized the circulation and produced a healthy moisture upon the skin. I used three bottles in two weeks, which entirely removed the soreness and weakness from my stomach, gave me a good appetite, and greatly improved my strength. I continued the use six weeks longer, six bottles in which time I was able to resume my ministerial labors. I have since recommended it to a large number, and have never known it to fail of doing good where the directions were followed.

I have given it to my child on *colds*, and in a case of *measles*, and it has proved all I recommended it to be.

I therefore *cheerfully* recommend N. H. DOWN'S VEGETABLE BALSAMIC ELIXIR to all who are afflicted with any of the diseases for which it is recommended. Yours truly, J. L. TUTTLE.

Camden, August, 1849.

Facts deduced from the foregoing letter:

1st. Down's Elixir is laxative—curing costiveness while other medicine increases that difficulty.

2d. It is perspiratant. It equalizes the circulation—restores a healthy moisture to the skin, and vigor and tone to the system.

3d. It removes soreness and weakness from the stomach—gives a good appetite, and restores strength to the system.

4th. It cures colds—is an effectual remedy for the measles, and proves "ALL IT IS RECOMMENDED TO BE."

It is sold by Druggists and Dealers in medicine throughout the country, and at wholesale and retail at proprietor's prices, by DAVID BUGBEE, G. W. LADD, CURTIS & PERKINS, A. P. GUILD, WM. MANN, G. McFARLAND, Bangor; L. S. Smith, J. W. Curtis & Co., Hampden; Chas Johnson, J. B. Chick, Frankfort; W. A. Fifield, Buckesport; J. Hooper, Jr., S. P. Hatch & Co., Castine; B. Nourse, Geo. Parcher, Ellsworth; E. P. Butler & Co., Orono; J. & K. Fisk, H. & J. Y. Richardson, Oldtown; Wm O. Poor, Belfast; Chas. A. Macomber, R. T. Simpson, East Thomaston.

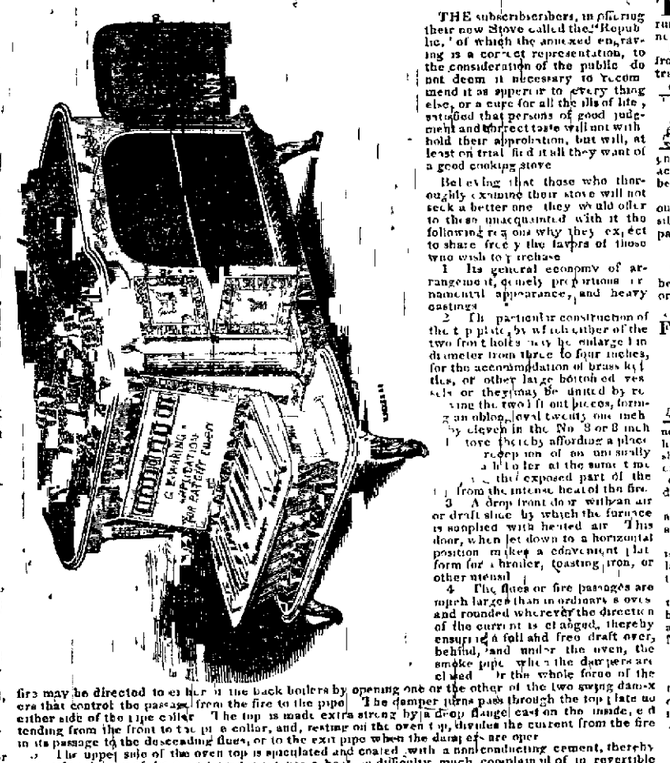
REPUBLIC AIR-TIGHT
COOK STOVE.



THE subscribers, in offering their new Stove called the "Republic," of which the annexed engraving is a correct representation, to the consideration of the public do not deem it necessary to recommend it as superior to every thing else, or a cure for all the ills of life, satisfied that persons of good judgement and correct taste will not withhold their approbation, but will, at least on trial find it all they want of a good cooking stove.

Believing that those who thoroughly examine their stove will not seek a better one they would offer to those unacquainted with it the following reasons why they expect to share freely the favors of those who wish to purchase.

1 Its general economy of arrangement, cleanly proportions ornamental appearance, and heavy castings.

2 Its particular construction of the top plate, by which either of the two front holes may be enlarged in diameter from three to four inches, for the accommodation of brass kettles, or other large bottomed vessels or the top may be united by removing the two front pieces, forming an oblong oval twenty one inches by eleven in the No 8 or 9 inch stove thereby affording a place for a reservoir of an unusually ...able size at the same time ...ing the exposed part of the ...from the action heated by the fire.

3 A drop front door without air or draft slide by which the furnace is supplied with heated air. This door, when let down to a horizontal position makes a convenient platform for a broiler, toasting iron, or other utensil.

4 The flues or fire passages are much larger than in ordinary stoves and rounded wherever the direction of the current is changed, thereby ensuring a full and free draft over, behind, and under the oven, the smoke pipe, when the dampers are closed. In this whole form of the flues may be directed to either of the back boilers by opening one or the other of the two swing damper plates that control the passage from the fire to the pipe. The damper plates pass through the top plate on either side of the pipe collar. The top is made extra strong by a drop flange cast on the inside, extending from the front to the pipe collar, and, resting on the oven top, divides the current from the fire in its passage to the descending flues, or to the exit pipe when the dampers are open.

5 The upper side of the oven top is speculated and coated with a non conducting cement, thereby protecting the top of the oven from too intense a heat—a difficulty much complained of in reversible flue stoves.

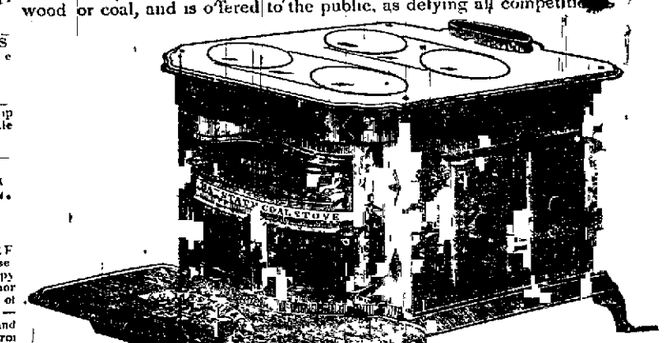
6 The oven bottom is made thoroughly hot by the large space allowed to the flues through which the heat passes in its way to the exit pipe and also by the spiculae on the under side of the oven bottom, coated like the oven top, and from conducting cement which prevents the loss of heat downwards.

Also, every description and pattern of cook stoves to be found in this market, *without any exceptions* together with every article usually kept in a stove establishment.

A. NOYES & CO.,
Nos. 7 and 19 Central Street,.....BANGOR.
sep 26

THE BEST STOVE NOW IN USE.
THE BAY STATE
COOKING STOVE,

Is unsurpassed by any other Stove now in the Market, being used for wood or coal, and is offered to the public, as defying all competition.



THIS STOVE was patented in 1845 for wood and in 1849 for coal and has been pronounced by competent judges the most beautiful and perfect in its appearance, and the best Cook Stove in the market. The castings are heavy, smooth and beautiful, the joints are fitted with great perfection; the ovens are very large, and very nearly square, and will take four middling sized pan plates. The Stove is so arranged that the wind lays and burns upon the ashes, instead of a grate by which means the fire can be preserved for a long time; and as the oven projects under the fire chamber the fire and hot ashes produce a beautiful heat over the front of the oven and cause the whole oven to heat equally. It has a beautiful apparatus for toasting and broiling, by which means all the smoke is taken off in to the stove.

The Coal Stove has a cylindrical, or oval cylinder, lined with soap-stone, or fire brick, and confessedly the best form of fire chamber in which to burn coal.

So confident is the subscriber, in the superiority of the above Stoves over all others in the market that he will after a fair trial of thirty days, refund the money and all expenses, if it does not meet the expectations of the purchaser.

The largest best selected, and most desirable Stock of Air Tight, Cooking, Office, and Parlor Stoves, in this market at Wholesale and Retail. Also, Cooking Ranges and Hot Air Furnaces, at prices to suit the times.

On hand as usual, a large assortment of LEAD PIPE, CASTINGS, COPPER and TIN WARE, and all other articles usually found in establishments of the kind.

N. B. COPPER, SHEET IRON and TIN WARE manufactured, as above, and by the best of workmen.

Orders gratefully received and promptly Executed

NEW AND

Important Discovery

GRAY HAIR can be restored to its original color, or whether Auburn Brown or Black Sandy Light or Red Hair can be matched with any darker shade surpassing in beauty even the most natural locks retaining the glossy softness of the original Hair, by using O M Ballard's

Permanent Liquid Hair Dye,

Of one preparation which is entirely different from all other preparations of Hair Dye now before the public. Is free from all injurious properties which can be tested by taking a lock of the finest and most delicate Hair of an infant, and color it with the Dye which will not injure its gloss or its texture in the slightest degree, which is the best evidence which can be given that it is not injurious. On the contrary it improves the lustre of the Hair promotes its growth and prevents it from falling out and unlike other preparations after the Hair is colored and dry, will not crock, fade, or wash out

In short from its peculiar delicacy softness, and easy application it is worthy the attention of all who may wish to improve the color of the Hair as it will make any shade from white to a jet black. It is now used to an unaccountable extent by persons who have previously used gray and other dyes whose Hair is of no desired color which they restore or exchange for a beautiful Auburn Brown or Black, without any additional preparation or the slightest trouble

HEALTH AND JOY

FOR

THE SICK!!

DR. STEPHEN JEWETT'S

Justly and Highly Celebrated

Family Medicines,

Used by Physicians of high Standing.

THE SUBSCRIBER SAYS and at the late DR STEPHEN JEWETT of Rindge, N H BELIEVES THAT ANY ONE of the so Medicines WILL RELIEVE OR CURE EVERY DISEASE to which SUCH PERSONS KNOW NO SINGLE ARTICLE OF MEDICINE IS MUCH RESULTS But it is believed these medicines, by thorough trial, will be found to have NO SUPERIOR or EQUAL for the speedy and PERMANENT CURE of those diseases for which they are recommended, as they have been tried, and proved by their continued use for many years by NUMEROUS FAMILIES and PHYSICIANS the TRUTH OF WHICH MEDICINES I stand ready to be at all times ANSWERABLE for the Truth of the above recommendations. Their power over disease has been tested in the most *difficult—if not impossible*—as numerous cures have been effected by the skillful physicians have failed to procure relief.

ALL MAY BE CURED, WHO WILL USE THE MEDICINES DIRECTED, IF WITHIN THE POWER OF MEDICINE

Dr Stephen Jewett's Celebrated

True Health Restoring Bitters

These Bitters remove all morbid secretions, purify the blood, give great tone and vigor to the digestive organs, cure diseases that already exist, fortify the system against all future disease, can be taken with safety—no time delay taking the patient being grateful to the most delicate stomach, and remarkable for CLEANSING INVIGORATING, STRENGTHENING and RESTORATIVE PROPERTIES and an invaluable and sure remedy in

Liver Complaints, Jaundice,

Dyspepsia, Flatulency or Wind, Costiveness, Faintness, Pain in the Side Bones or Joints, Disorders of the Skin, Liver and Kidneys, Restless Sleeplessness, Depression of Spirits, Piles, Humors, Worms, Sinking and Fullness or Weight at the Stomach, Nervous Headache, and every form of Indigestion, Nervous Irritability, Giddiness Drowsiness, Wandering Pains, Palpitation of the Heart, Scrofula, St Anthony's Fire, Salt Rheum Consumption, and all other diseases caused by an impure state of the Blood Liver, &c, or which tend to debilitate and weaken the system

To FEMALES who suffer from a Morbid and Unnatural Condition, and who seem threatened with CONSUMPTION, this is a Medicine of Inestimable Value It is an *Excellent Remedy in* SUMMER COMPLAINTS and a *Great Preventive* of FEVERS.

Dr Stephen Jewett's highly Celebrated

Pulmonary Elixir.

This Elixir contains many of the most highly approved cough or expectorant medicines, recommended by the United States, London, and Edinburgh Colleges of Health, but being peculiarly and fortunately combined is truly wonderful in its good results *Principally should this Medicine be in every Family where there are* CHILDREN, as the delay incident to procuring a Physician has often proved fatal to those whom *timely assistance would have SAVED*

This Elixir will prove itself to excel any thing, as a sure remedy in

Consumption of the Lungs, Coughs, Colds, Sore Throat, Influenza, Asthma, Bronchitis, Quinsy, Croup, Whooping Cough, Difficulty of Breathing, Pains in the Side or the Breast, Soreness of the Chest; Distress when lying upon the side, producing Choking, or sense of Suffocation, &c &c

Dr Stephen Jewett's Justly Celebrated

Strengthening Plaster.

This Plaster is composed of quite a number of valuable substances, peculiarly compounded never has been, and there is not at this present time a better plaster made for the various purposes which plasters are used It Has no equal for removing

Pain Internal Inflammations,

The above Gout Swollen or Weak Joints, Pains or Aches in the Side, Back or Breast, Weak Stomach, &c, &c, and which used in

LIVER AND PULMONARY DISEASES, are very beneficial to those suffering with complaints

Extract from a letter of an eminent physician in Worcester Co, Mass, a member of the Massachusetts Medical Society

WORCESTER, Jan 16, 1849

Dr Stephen Jewett,

Dear Sir—I have used your *Health Restoring Bitters* in my practice, and have found them very serviceable in a *Dyspepsia, Humors General Debility*, and particularly in *Habitual Costiveness* I consider it one of the best remedies in use, Yours, &c, IRA RUSSELL, M D

From one of the most eminent physicians in the State of New Hampshire

FRANCONIA, N H, Jan 17, 1849.

Dr S Jewett

Dear Sir,—I have examined your *Pulmonary Elixir*, and am well satisfied that it *merits the full confidence of the community*, as being what it purports to be, an efficient and *safe remedy for all* the diseases to which the respiratory organs are subject It may be used with much more *safety* than almost any other article offered for this purpose inasmuch as the dangers of impaired action of those organs, the frequent and legitimate results of most other remedies of the class, by reason of *their opiate character*, is by this, *entirely obviated*

The physician who should meet with it in families, would find it a *ready assistant*, by which his own labor in the dispensation of medicine would be obviated, and his efforts for relief essentially aided

With much confidence I remain your obedt servant

J P KINGSBURY, M D

See what a very celebrated merchant and well known insurance agent says

PORTLAND, Me, April 24, 1849

Dr Stephen Jewett

Sir,—Having used your *Health Restoring Bitters* and *Pulmonary Elixir*, to a considerable extent, in my family, for the past winter, I would beg leave to bear testimony to the efficacy of those medicines, the former for *restoring loss of appetite, for headache, languor*, and *general debility*, the latter for *coughs* and *sore throat*—I think *no family should be without those restoratives always at hand*, they occurring frequently *superseding the necessity* of calling in a physician

Your obt servt, CALEB S CARTER

From George W McLellan, Esq, formerly a distinguished citizen of Maine, now of the city of Boston

BOSTON, March, 3, 1849.

Dr Stephen Jewett

Sir—I have used your *Pulmonary Elixir* in my family for a year or more, and it has proved *decidedly the best cough medicine I have ever known* I therefore most heartily recommend it to all who may require such a medicine Respectfully yours, GEO W McLELLAN.

For further information regarding these VALUABLE MEDICINES, see Pamphlet to be had of the Agents, (gratis,) where testimony from the highest quarters will be found, among which are letters from HON. AGENCY FOR BUSINESS

With U. S. Patent Office

WASHINGTON

NO. 22 STATE STREET, BOSTON.

IN 1840 the subscriber was appointed by the Commissioner of Patents Agent of the U S Patent Office in accordance with the 10th Sec of Act of '37

Having relinquished the Agency for the transmission of Models and adopted a more expeditious mode of sending them to the Patent Office, *where by a Patent may be procured about six weeks earlier* he continues to forward them free of expense—to prepare Caveats, Specifications, Assignments, and all the necessary Papers and Drawings for Patents, and to render advice on legal and scientific matters respecting the same Patents secured in Europe and other countries

By application at the office, inventors are saved the time and expense of a journey to Washington and delay there, as well as all personal trouble in obtaining their patents They also have the advantage of *verbally* explaining their inventions, and of consulting in respect to them, *matters, in general, of paramount importance in order to obtain correct specifications and claims* The experience of *sixteen years* in practice, an extensive collection of rare works on various &c on mechanical subjects, the Patent Laws, and patents of different countries, collected at much expense during the long time this office has been established, together with accounts here kept of inventions patented at Washington, enable the subscriber to afford to inventors the means of procuring Patents, assistance and information which in other respects might be difficult of attainment

E H EDDY Solicitor of Patents.

WASHINGTON, JULY 21, 1849.—During the time I occupied the Office of Commissioner of Patents R H EDDY Esq, of Boston, did business as the Patent Office as Solicitor for procuring Patents There were few, if any persons acting in that capacity who had so much business but none conducted it with more skill, fidelity and success I regard Mr Eddy as one of the best informed and most skillful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them as early and favorable consideration at the Patent Office EDMUND BURKE,

FITS! FITS!!

HARTS' VEGETABLE EXTRACT

Is the only remedy that can be relied on for the permanent cure of Spinal Complaints, Spasmodic Convulsions, Irritation of the Nerves, Nervous Sick Headache, Nervous Tremors, Neuralgic Affections, Apoplexy, Paralysis, General debility Deficiency of Nervous and Physical Energy, and all Nervous Disorders, including the most dreadful of all diseases that ever afflicted the human race

EPILEPTIC FITS,

or Falling Sickness, Hysterical Fits, Convulsions, Spasms, &c Dr Hart would impress it upon the minds of the afflicted, that the Vegetable Extract is the only remedy ever discovered that can be relied on for the permanent cure of this most dreadful of all diseases Acute tendency is to insanity, madness and death the most

SKILLFUL PHYSICIANS!

of Europe as well as those of our own country have pronounced Epilepsy incurable And it has long been considered by many, until this most important of all discoveries was made by Doctor S Hart, now by gone seven years since, during which time it has been performing some of the most

REMARKABLE CURES

upon record and has acquired a reputation which time alone can efface Physicians of undoubted skill and experience, ministers of various denominations, as well as hundreds of our eminent citizens will testify to recommending the use of this truly valuable medicine to their patients, charge, and friends, who are afflicted as the only remedy

WE QUOTE THE LANGUAGE

used by those who have been cured by this valuable medicine One says, "I have suffered beyond my power of description but now I rejoice in being fully restored to health and happiness" Another says, "I thank God I feel that I am a well man I also feel it my duty to proclaim it to the ends of the earth that those similarly afflicted may find relief Another (who is an

EMINENT LAWYER,

and well known in this city) says my son has been afflicted for years with Epilepsy, but is now enjoying good health from the Vegetable Extract Its fame," says so, "should reach the ends of the earth" Another says, "Language is entirely inadequate to express my gratitude to Dr Hart, for restoring me to health after having been afflicted with Epilepsy in its worst forms for more than twenty thousand days, and my morning and evening prayers will be for his prosperity and thanksgiving shall continue to record to that God who has afflicted but to make me whole"

Mrs J Bradley, 115 Orchard street, New York, states that she has been subject to Fits for many years and has been restored to perfect health (after every other means had failed) by the use of the Vegetable Extract

Dr Charles A Brown of Dover, Russell co, Alabama, who is one of the best Physicians in the State, says that he has been much benefitted by the use of the Vegetable Extract and that he has unhesitatingly prescribed it in every case of Epilepsy which came under his knowledge

Curtis G Mayberry, Esq. formerly Post master at Lime Mills, Crawford Co, Pa, now living in Erie Co Pa, states that for many years past he has been sorely afflicted with Fits, and he is now happy to state that a perseverying use of Dr Hart's Vegetable Extract has restored him to sound health, being entirely freed from that worst of all diseases

Mr Stephen L Pratt, borner of Sixth Avenue and Twenty-sixth Street, New York states that Mr Charles E Boughton, a member of his family, has been so severely afflicted with Epileptic fits for many years that he was obliged to relinquish his business Having used Dr Hart's Vegetable Extract [says Mr Pratt] he was soon restored to perfect health, and is now at his office in the State of Ohio to resume his business.

Rev Mr Smith, Rector of St Peter's Church, Spotswood, New Jersey, who has been afflicted with Epileptic Fits for more than forty years, states that he purchased Dr Hart's Vegetable Extract, and his health has been so much improved that he hopes by Divine blessing to have no more Fits

EPILEPTIC FITS,

For twenty seven years and six months, cured by the use of this truly wonderful medicine

Read the following remarkable case of the son of Wm Sanford Esq of Philadelphia, affected with Epileptic Fits for twenty seven years and six months—After travelling through England, Scotland, Germany, and France, consulting the most eminent physicians, and expending four thousand dollars, returned with his son to this country in November last, without receiving any benefit whatever, and was cured by using

HARTS VEGETABLE EXTRACT

"I have spent over three thousand dollars for medicine and medical attendance I was advised to take a tour to Europe with him, which I did First we tied England I consulted the most eminent physicians there in respect to his case, they examined him and prescribed accordingly I remained there seven months without perceiving any change for the better, which most me about two hundred and fifty dollars, pocketed by the physicians, and the most that I received was their opinion that my son's case was hopeless, and

POSITIVELY INCURABLE

I accordingly left England, travelled through Scotland, Germany and France, and returned home in the month of November with my son as far from being cured as when I left home I saw your advertisement in the New York papers, and concluded to try Hart's Vegetable Extract, seeing your statement and certificates of so many cures, some of twenty and thirty years standing, and I can assure you I am not sorry I did so, as by the use of Hart's Vegetable Extract my son has was restored to

PERFECT HEALTH

His reason, which was so far gone as to unfit him for business is completely restored, with the prospect now before him of life, health and usefulness He is now 28 years of age, and 27 years 6 months of this time he has been afflicted with this most dreadful of diseases but thank God he is now in perfect good health

Now, faith without works I don't believe in—To say I shall be ever grateful to you is nothing, and as I have one less you one hundred dollars I have no doubt you will think this another act of justice, and not a generous one. The debt of gratitude I still owe you, but please accept this amount as interest on the debt in advance Yours, very respectfully, WILLIAM SANFORD.

(Signed)

THE TIME IS NOT FAR DISTANT

When thousands who are now in fetters under the hand of this dreadful disease, and looking for their every attack may prove fatal, will find permanent relief and be restored to new life, by using the celebrated medicine

DR. PEARSON'S

CARMINATIVE BALSAM.

Great Cholera Preventive.

THIS article should be in the possession of every person travelling It has never been known to fail of producing the happiest results in cases of Cholera Morbus Diarrhœa, &c, and has during the prevalence of the CHOLERA in this country, been performing wonderful Cures,—though it is recommended more par ticularly as a PREVENTIVE but is useful in any stage of the complaint. If taken immediately upon the appearance of the Diarrhœa—which is a premonitory symptom of Cholera—an attack of it is fearful and fatal disease may be prevented In Cholera Morbus and Summer Complaints of children, it has no equal Dr P has made use of this remedy in his practice for near 10 years with the most remarkable success Price only 25 cents per bottle

It is decidedly the most beneficial remedy for the cure of Dysentery, Cholera Morbus and Summer Complaint that is known to man Parents will find it the best medicine that can be used for young children and infants And every person who is travelling in the summer months should not be without a bottle of it in their possession as it is an infallible remedy against the change produced in the system by drinking bad water

We annex the following certificate of Mrs A M Sanford of New York in reference to the Carminative Balsam We might add a long list, but consider this sufficient

This is to certify that I have used Dr Pearson's Carminative Balsam and confidently believe it to be the best medicine that can be used for the various diseases for which it is recommended and to all ladies who are traveling in the summer months and mothers for the fretting and crying of infants for which it is a certain cure

Fall Style.

RECEIVED at HEMENWAY & HERSEY'S, 27 Main Street

DR CHRISTIE'S

GALVANIC BELTS

BRACELETS, NECKLACES,

AND

MAGNETIC FLUID.

For the Removal and Permanent Cure of all

NERVOUS DISEASES,

And of those Complaints which are caused by a impaired, weakened or unhealthy condition of the

NERVOUS SYSTEM.

This beautiful and convenient application of the mysterious powers of GALVANISM and MAGNETISM has been pronounced by distinguished men, both in Europe and the United States, to be the most *valuable medical discovery of the age*

Dr. CHRISTIE'S GALVANIC BELT

and

MAGNETIC FLUID,

is used with the most perfect and certain success in all cases of

GENERAL DEBILITY,

Strengthening the weakened body giving vigor to the various organs and bringing back the system Also in

FITS, CRAMP, PARALYSIS AND PALSY,

Dyspepsia or Indigestion,

RHEUMATISM, Acute and Chronic

GOUT, EPILEPSY, LUMBAGO

DEAFNESS, NERVOUS IRRITATIONS PALPITATION OF THE HEART, APOPLEXY, NEURALGIA, PAINS in the SIDE and CHEST,

Liver Complaint,

SPINAL COMPLAINT, and CURVATURE of the SPINE, HIP COMPLAINT DISEASES of the KIDNEYS DEFICIENCY of NERVOUS AND PHYSICAL ENERGY,

and all

Nervous Diseases,

which complaints arise from one cause and are treated in the same manner

A Derangement of the Nervous System

is the NERVOUS COMPLAINTS that all so much dread. *The disease* for they weaken all the vital energies of the afflicted, prevent sleep, cause the liver to become torpid, stop the digestive functions, produce costiveness, and weaken the whole system, every thing that I had tried failed and my health completely failed At last I was induced by my friends to examine our inventions and though determined to try the effect of the application of the GALVANIC BELT AND MAGNETIC FLUID This was in June 1849.

TO MY GREAT ASTONISHMENT IN THE DAYS OF TWENTY EIGHT NINETY EIGHT I HAD PREVIOUSLY RESUME MY PERSONAL LABORS SO MUCH AS TO BE ABLE TO DO A SINGLE SERVICE IN CONNECTION WITH BRONCHITIS, AND MY RHEUMATIC PAINS CEASED TO TROUBLE ME If time permitted I could fill a sheet of paper with the data I of particulars but I can now only furnish this brief abstract My Dyspepsia has *never returned*, the Rheumatism once in a while visits me but not severely and easily arrested and I manifestly feel a decided improvement in my system and my Bronchial affection is *entirely cured* Such is the wonderful and happy results of the experiment

I have recommended the BELT and FLUID to many who have been likewise suffering from neuralgic affections They have tried them with marked benefit I DO NOT HESITATE TO SAY THAT THEY ARE A VERY GREAT BLESSING

Fam, dear sir very respectfully yours, ROBERT W LANDIS

Many hundred Certificates from all parts of the country of equally extraordinary character will be given

No trouble or inconvenience attends the use of *DR CHRISTIE'S GALVANIC ARTICLES*, and they may be worn by the most feeble and delicate with perfect ease and safety In many cases the patient is attending their usual *avocations* and *pleasant* and *agreeable* They can be sent to any part of the country
